 Even the Infected Venoms will stupidly try to attack your walls rather than a building behind it.. You are one of his field commanders, tasked with reconquering lands from the Infected and building new colonies.. The game contains examples of following tropes: After the End: The game takes place after a zombie apocalypse has caused the nations of Earth to collapse.. Awesome, but Impractical: Top tier units are spectacular to look at in action but also cost more to maintain than standard units and require a constant supply of oil which is the least common resource.. They are some of the fastest units in the game with a long sight radius and pack a steampunk bow so they can kill small groups of the infected without alerting a large horde.
